

SSW-4

Dual 8" (200mm) In-wall Passive Subwoofer

JBL

SYNTHESIS[®]
by HARMAN

A Heritage of Excellence

JBL loudspeakers have been a top choice of music and movie professionals for more than 70 years. And since 1992, JBL Synthesis has been providing world-class turn-key home cinema systems for home movie enthusiasts. When you combine leading edge speaker technology with the latest in room acoustics and audio science, you get a sonic experience that's unmatched.

JBL SSW-4 Dual 8" In-wall Passive Subwoofer

The SSW-4 combines deep and moving bass with lifelike realism for a remarkable home cinema and concealed music system experience. It's designed to fit standard 2 x 4 stud frame construction, and the self-contained module with integrated back box makes it easy to retrofit existing installations. The SSW-4 is designed to be powered by the JBL Synthesis SDA 8300 8-channel, 300W power amplifier; each of which can power up to eight SSW-4s.
